

HAMMOND HIGHLIGHTS

Quarter 1 2023 | February 21, 2023

Reflections from Hammond Leadership

2023 is a year of celebration for Hammond & Associates as we celebrate 35 years in business!

Eric Hammond
Founder

Nate Hammond
President

Message from the Founder

Eric Hammond

As I reflect on 35 years in business, I am so proud of how far we have come. There have been a lot of ups and downs, but we are still here and thriving. What started as a one-man show to provide for my family has progressed into more than 25 team members in 4 offices across 2 states. So, as I transition to the next phase in my life, I am more than confident to hand over the reins of the company to my son, Nathan, who will now lead as President.

His expertise in business development, client relationships and process improvement are exactly what the company needs to increase client service and expand our reach to take our MEP engineering firm into the next 35 years.

Message from the President

Nate Hammond

As we celebrate 35 years of business, I am humbled and blessed to have the opportunity to continue the success that my dad has achieved in the last 35 years. I am grateful for his leadership, boldness, and guidance as I move into this new role. Now, as President, I recognize that I have big shoes to fill and am standing on his shoulders to help our firm achieve the next level of quality engineering design, client service, and team development.

We have been growing our team and have plans to expand our reach into strategic

markets within the southeast U.S. Also, we have had the honor of being awarded and delivering on some very notable projects in recent months, which we mention later in our updates. All in all, the future continues to look bright for our firm because we have **great people who work hard daily to serve our clients at the highest level**.

Thank you to our staff, clients, and industry partners over the last 35 years. Here's to 35 more years of success. Let's celebrate!

TEAM HAMMOND

Welcome our newest team members!

Alain Hernandez
BIM Manager

Alain joined the Hammond team this month as a BIM/CAD manager. His goal is to bring the firm to the forefront in the BIM engineering field. In his spare time, he is known as a musician and a programmer.

David McKinney
Mechanical Design Engineer

David joined the team in November 2022 as a Mechanical Design Engineer in our Atlanta office. He's skilled in AutoCAD, Computer-Aided Design (CAD), Young People, Revit, and Construction.

Elizabeth Robles
Electrical Design Engineer

Elizabeth joined the South Florida team in October 2022 as an Electrical Design Engineer. She's excited to develop more skills as an electrical engineering. Outside of work, Elizabeth loves traveling, learning new languages and spending time with loved ones.

Guillermo Gayoso
Mechanical Design Engineer

Guillermo joined the Hammond team in November 2022 as a Mechanical Design Engineer. He has a keen eye when it comes to creating engineering plans and is working toward his professional engineering license. He enjoys working out, playing guitar and gaming.
